****If Bolton access is needed please complete and sign page 2 of this form****.

Bolton share file is a confidential share file system that has Personal Identifiable Information (PII).

Personal Identifiable Information or “PII”, which is any information that permits the identity of an individual to be directly or indirectly inferred, including any other information that is linked or linkable to that individual.

By signing this form, I state that I will not share my password with anyone within my organization, or outside of my organization, to access the Bolton share file.

If someone, other than you, need access to the Bolton ShareFile, they will request that access individually.

Failure to comply with this rule will result in my current and future access being revoked.
